

28 May 2019

This year survey to discover global attitudes towards open data is now open, organized by Digital Science, in association with Figshare and Springer Nature.

Now it's your turn to have your say in "**The State of Open Data 2019**". If you are a researcher, no matter your institution, discipline or location, this is your opportunity to shape the future of data sharing. **Let your voice be heard, take the survey.**

As their way of gratitude, five random respondents will have a chance to win a \$100 gift card after the survey closes on 30th June.
