

# OPEN CALL

Join the European Group of FAIR Champions  
to shape policy and promote  
the adoption of FAIR data

10 January 2020

Do you have a broad expertise in FAIR policy or practice? Do you bring strong research data advocacy experience? Are you a “FAIR” expert in your field? FAIRsFAIR is offering you the unique chance to join the European Group of FAIR Champions and help shape the future data policies for EOSC.

**The FAIRsFAIR European Group of FAIR Champions (EGFC)** is a highly visible group of experts and inspired influencers engaged on making FAIR data in Europe a reality. It is composed by scientific experts and “doers” in the field of FAIR data. Each EGFC member represents a different stakeholder group and provides advice on operational challenges and policies to improve the adoption of FAIR practices in different scientific communities in Europe.

By becoming a Champion you will have the opportunity to:

- drive and influence the development of competencies and capacity around the uptake of FAIR data principles.
- help shape the development and implementation of standards for data management within their own discipline based on new, international good practice sourced at FAIRSFAR.
- influence requirements in Europe to be fed directly to the EOSC governing boards.
- introduce FAIR data management use cases for customisation in their community/ies.

## **[APPLY NOW](#)**

### **How do I apply?**

Simply fill in the form available [at this page](#).

### **Who can apply?**

New members will be selected based on their individual merits, background and knowledge. They will share FAIR implementation stories, enhance synergies, and cross-fertilise with other projects and communities to maximise the impact of FAIRsFAIR.

### **How will I contribute?**

By becoming a FAIRsFAIR Champion, you will have the opportunity to:

- Contribute valuable content in any physical meetings, workshops or events organized also via video interviews (example), blogposts and commentaries ([example](#))
- Join the [FAIRsFAIR Synchronization Force](#) Workshops (2 in 2020)
- Contribute to the White Paper and project reports that will feed into the [EOSC Executive Board Working Group on FAIR](#).
- Provide success stories for broad dissemination.
- Respond to surveys as part of the FAIRsFAIR landscape analysis.
