

11 November 2020

From 16 to 19 November 2020 FAIRSFair will have a booth at the first ever virtual EOSC Projects EXPO inside the EOSC-hub, FREYA, SSHOC joint event [Realising the European Open Science Cloud](#). The four-day event will showcase the results achieved to date in the three projects and gathers together social science and humanities researchers, data experts, research funders, policy makers, and representatives from the ESFRI Cluster projects, research infrastructures, service providers, research libraries and archives, and the larger EOSC ecosystem.

At the event FAIRsFAIR will showcase the tools developed to improve FAIR assessment:

- [FAIR-Aware](#), which helps researchers and data managers assess their awareness and provides guidance about FAIR data requirements
- [F-UJI FAIR](#), an assessment tool for research datasets
- [Seventeen minimum viable metrics for the systematic assessment of FAIR data objects](#).

The FAIRsFAIR [Report on FAIR requirements for persistence and interoperability](#) will be also be showcased, and FAIRsFAIR will also present its [recommendations to support the realisation of a FAIR ecosystem](#), and introduce the [FAIR Data Repositories Certification Programme](#). The [outcomes of the survey](#) on the need for FAIR data stewardship & professionalisation in European higher education will also be shared alongside the [second report](#) from the FAIRsFAIR Synchronisation Force focused on measuring progress towards implementing the recommendations outlined in the Turning FAIR into Reality report.
