

FAIRsFAIR National Roadshow Series

To better connect with national initiatives, a series of events part of “FAIR National Roadshows” will be organised in 2021-2022, with the aim of speeding up FAIR adoption by different European countries. The roadshows would extend our current network beyond the projects and initiatives that we already collaborate with, introducing another platform to promote FAIRsFAIR recommendations, good practices, and assessment tools.

Audience

FAIRsFAIR warmly invites the RDM community in the various countries, data support staff, researchers and data policy makers in Universities, to join the event

2 March 2021
