

Which of these options best describes your service?

Have you ever tried to assess the FAIRness of your data holdings before?

If yes, what approach did you use to carry out the assessment?

F-UJI

manual assessment using FAIR principles

F-UJI tool

F-uji

early version of this tool

GO-FAIR assessment tool, F-UJI, ...

F-UJI

Cbecklist

F-UJI

If yes, what approach did you use to carry out the assessment?

Both f-uji and the earlier fair evaluator

Own project developments + FUJI (for testing)

manul assessemnt against FAIR principles, F-UJI

I carry on a review process of the metadata details, checking the uploaded files as well

Go FAIR assessment tool

GO-FAIR assessment tool

Following today's session, do you think you will carry out an assessment of the FAIRness of your data holdings using F-UJI or some other approach?
