Fostering Fair Data Practices in Europe

BUILDING THE DATA LANDSCAPE OF THE FUTURE: FAIR SEMANTICS AND FAIR REPOSITORIES

SAVE THE DATE
22 OCTOBER 2019
ESPOO, FINLAND

FAIRSFair WORKSHOP CO-LOCATED WITH RDA PLENARY

Brainstorm with us about how to remedy the shortcomings for FAIRness and interoperability of current semantic resources/artifacts and data repositories.

RESEARCH DATA ALLIANCE

FAIRSFair "Fostering FAIR Data Practices In Europe" has received funding from the European Union's Horizon 2020 project call H2020-INFRAEOSC-2018-2020 Grant Agreement 831558

FAIRSFAR OPEN CONSULTATION: FAIR DATA POLICIES AND PRACTICES

FAIRsFAIR is looking to assess the skills, practices, services and policies required to make research data Findable, Accessible, Interoperable and Reusable.

HAVE YOUR SAY

BEFORE 20 SEPTEMBER 2019

FAIR Policies & Practices Survey

To whom? Researchers, repository managers and data practitioners

What range of policies influence the way that researchers work, what motivates researchers when sharing data and metadata, and what sources of support are currently available?

Semantics and Interoperability Survey

To whom? Data curators, architects, developers

What kind of formats, semantic artefacts, identifiers and software practices you see in the scientific community you work with?
